DEPARTMENT OF ZOOLOGY
STUDY TOUR REPORT
VISIT TO: LAC PROCESSING UNIT, SAVRI

DATE: 30/08/2018

Lac is the scarlet resinous secretion of a number of species of Lac insects, of which the most commonly cultivated species is *Kerria lacca*. Cultivation begins by inoculating brood lac stick on tender shoots of the host plant. The broodlac stick contains eggs ready to hatch. Thousands of lac insects colonize the tender branches of the host trees and secrete the resinous pigment. The coated branches of the host trees are cut and harvested as sticklac after the maturity period. The harvested sticklac is crushed and sieved to remove impurities. The sieved material is then repeatedly washed to remove insect parts and other soluble material. The resulting product is known as seedlac. The prefix seed refers to its pellet shape. Seedlac which still contains 3-5% impurities is processed into shellac by heat treatment or solvent extraction. The leading producers of Lac in India are Jharkhand, Chhattisgarh, West Bengal, and Maharashtra. Lac production is also found in Bangladesh, Myanmar, Thailand, Laos, Vietnam, parts of China, and Mexico. Lac is basically used as a dye. Other uses are production of bangle, ornaments, varnish, protective coating of fruits and vegetables etc.

VISIT TO: CENTRE FOR BEEKEEPING DEVELOPMENT (CBeeD), WARDHA

DATE: 23/09/2017

INTRODUCTION

The Indian agriculture needs to be diversified so as to generate more income to farmers. Considering this aspect Khadi and Village Industries Board is promoting Bee-Keeping industry from years together in the country. Honey and Bees are known to the mankind since times immemorial. Honey is a nutritious fluid collected by Honey Bees which is good for human health. Honey is used by mankind since very ancient period as food, medicine etc. Bee-Keeping industry also plays important role in increase in yield of crop through pollination. This industry plays important role to create employment opportunities among the rural mass. The Government is implementing various programmes so as to promote this industry at large extent.

Dr Gopal Paliwal, Director, CBED share his views on Apiculture

Dr Gopal Paliwal share their views “How to Identify Queen Honey Bees”?

Manufacturing Process:

The preparation of good quality honey starts at bee yard. Bee-keeping activity should ideally located where there are minimum movements of human-beings with very little noise. Forest area is, therefore, suited with many flowering plants naturally grown. Movable wooden frames with boxes are placed at such locations and these boxes are spread with honey spice to attract more and more honey-bees. These bees leave fresh honey sucked from flowers in the cells of honey-comb provided in the boxes to eat bee feed. When these cells are full of honey, they are hermetically sealed by capping with wax and then honey is extracted from these cells. Freshly extracted honey is warm and easy to bottle. Honey should be stored in dry places as it readily absorbs moisture.

Dr Mrs Paliwal Share gave information about processing of Honey

Dr Mrs Paliwal Share gave information about processing of Honey

Market Potential:

Bee's Honey is natural, unrefined food consumed as much in fresh or canned state. Honey has substantial medicinal properties and is used in India since long. Procurement of natural or pure honey is becoming difficult due to urbanization and de-forestation. Simultaneously, its demand is steadily increasing as ayurvedic medicines are becoming more and more popular. Honey is used extensively in making ayurvedic medicines. Many health conscious people consume it regularly. Natural honey is always in demand round the year. It is also used in making certain health food preparations. Therefore, the government is also encouraging this activity and many government agencies extend many incentives as well as marketing support.

Packaging of Honey by Students

EXTENSION ACTIVITIES

1. For the farmers of nearby locality, visits will be arranged on my Honey bee-keeping & they will be educated on scientific lines regarding various aspects of Honey bee-keeping. It will help them to improve their knowledge and skill regarding scientific practices so as to enable them to adopt the same.
2. For farmers who have decided to avail loan from bank for Honey bee-keeping project, assistance will be provided to prepare their bankable project report.
3. For the marketing of Honey, farmers will be provided necessary support & guidance.
4. Visits of farmers will be arranged to exhibitions with the prime objective of exposing them the technological innovations.
5. Nowadays internet has become important tool to get latest information. There are various websites available on Honey bee-keeping which provides useful content. This information will be shared to farmers.

This approval is subject to the following terms & conditions:-

1. That the College is recognized under Section 2 (f) & 12 (B) of the UGC Act and is receiving General Development Assistance from the UGC.
2. All institutions may ensure and inform UGC the specific job roles from the National Occupational Standard(s) developed by the concerned Sector Skill Council, wherever exists, and create the curriculum aligned to the progressive job roles mapped with exit options.
3. No money, except of guest faculty, will be transferred to the Industrial partners. This should be explicitly specified in the MOUs.
4. College shall ensure partnership of the industry in the development of the curriculum and alignment of the skill components of the curriculum with the National Occupation Standard(s) developed by the respective Sector Skill Council.
5. Only nominal fees may be charged from the students and in any case it should not exceed Rs. 12,000/- annually.
6. Monitoring/evaluation and updating of the curriculum may be done periodically in consultation with the industry partnership keeping in view their requirements and changes in the National Occupation Standard(s).
7. Industry partner(s) may be given a clear and well defined role in the assessment of learners.
8. UGC grants should be spent strictly on the items mentioned in the approval letter.

Other provisions as laid down in the guidelines available on UGC website may also be followed strictly. You are requested to proceed further towards starting the programme(s) under Community College Scheme

With kind regards.

Yours sincerely,

AL
