REPORT ON TEACHERS' FEEDBACK ON CURRICULUM AND INFRASTRUCTURE

Session 2022-2023

Feedback is an essential element of the learning process. The college collects the feedback on various curricular aspects and infrastructure from different stakeholders such as the students, alumni, faculty and employers through online. The feedback collected has been analyzed and taken into the consideration for the development of curriculum, teaching-learning process and infrastructure.

Analysis of Teachers' Feedback

Feedback on various aspects of curriculum and infrastructure is sought from 22 faculty members of the college. The aspects such as coverage of both theoretical and practical components in the syllabus, the coherence of the syllabus with Programme Outcomes, focus on necessary technical/teaching skills, ensuring components that inculcate ethical values, reference books and journals, ICT facilities and conducive environment are covered in the feedback. As teachers play a pivotal role in designing and implementing the curriculum, the inputs received from their feedback was taken into consideration for further necessary action wherever applicable.
